AT THE ABOVE TIME AND DATE THE REPORTER CAME TO JUVENILE DIV. WITH ADDITIONAL INFORMATION ON THE ABOVE. OFFICER CHECKED ID AND LOCATED RAP SHEET ON THE SUBJECT WITH WHOM THE COMP IN THIS CASE IS SUPPOSED TO BE RESIDING. OFFICERS ALSO CHECKED WARRENTS AND FOUND 3 OUTSTANDING WARRENTS FOR TRAFFIC ON THE SUBJECT LISTED BELOW. OFFICERS ALSO CHECKED WITH THE PHONE CO. FOR A LISTING AND FOUND A NEW LISTING FOR A DONALD AMES AT 1510 W. 43RD. OFFICERS CHECKED THE ABOVE ADDRESS AND TALKED TO MRS AMES WHO STATED THAT HER HUSBAND WAS NOT RELATED TO AND HAD NO KNOWLEDGE OF THE BELOW SUBJECT. OFFICERS WHILE AT THE ABOVE ADDRESS NOTICED A FORD STATION WAGON PARKED NEXT TO THE ABOVE ADDRESS AND CHECKED THIS VEHICLE AS IT WAS OCCUPIED. OFFICERS FOUND THE VEHICLE TO BE OCCUPIED BY THE REPORTER WHO WAS INTOXICATED AT THIS TIME. OFFICERS THEN ADVISED THE REPORTER TO RETURN HOME, AND THAT SHE WOULD BE NOTIFIED IF HER SONS WERE LOCATED.

OFFICERS WERE P.W. STICKLAND # 2402 & M.N. LUZAICH # 1603 THEN PROCEEDED TO 2315 PORTSMOUTH WHICH ADDRESS WAS ON THE TRAFFIC WARRANT OF ROY CLIFFORD AMES. UPON ARRIVAL OFFICERS FOUND THIS TO BE THE BUSINESS ADDRESS OF PIERRE COOK & ASSOCIATES, PHOTOGRAPHERS. THIS ADDRESS WAS ON ALL 3 OF THE SUBJECTS TRAFFIC WARRANTS ALL ISSUED AT DIFFERENT DATES AND OFFICERS RECALLED THAT THIS SUBJECT GIVES HE EMPLOYMENT AS PHOTOGRAPHER. OFFICERS ALSO CHECKED THE SUBJECT RAP SHEET ATTACHED AND FOUND THAT THE SUBJECTS BROTHER LISTED AS BEING NAMED RAYMOND NOT DONALD. OFFICERS FEEL THAT THE REPORTER WAS MISINFORMED AS TO THE NAME OF ANY # 2 SUBJECT. HOWEVER OFFICERS FEEL, DUE TO THE CONNECTION OF THE BELOW SUBJECT WITH PHOTOGRAPHY AND OFFENSES OF THE NATURE ALLUDED TO IN THE RUNAWAY REPORT THAT A UNIT SHOULD CHECK 2315 PORTSMOUTH DURING NORMAL WORKING HOURS FOR POSS EMPLOYMENT OR RECORD OF EMPLOYMENT OF THE SUBJECT WITH THIS CO.

AUTOPSY REPORT

Case 73 - 3353

August 13, 1973

PATHOLOGICAL DIAGNOSIS ON THE BODY

OF

Donald Wayne Waldrop
904 Tulane Street
Houston, Texas

Asphyxia due to strangulation.

OPINION

It is our opinion that the decedent, Donald Wayne Waldrop, came to his death as a result of asphyxia due to strangulation - homicide.

It is our further opinion that the time of death was on or about January 30, 1971.

COMMENT: Initially, the clothing which Mr. Everett Waldrop positively identified as belonging to his sons, Donald Wayne and Jerry Lynn, were submitted with the skeletal remains of Unknowns #9 and #10. The amalgam filling in tooth number 30 matched the description furnished by him for Donald and since the other skeletal criteria also were consistent with the size and age of his two sons, the skeletal remains of Unknowns #9 and #10 were released to him and interred in Georgia.

Subsequently, during the continuing process of identification of other victims, the antemortem X-rays submitted by Dr. Robert H. Shame were compared to the postmortem radiographs of the

jaws of Unknowns #9 and #13. It was then determined that the skeletal remains of Unknown #9 were actually those of David William Hilligiest and Unknown #10 were those of Gregory Malley Winkle, Unknown #13 were those of Donald Wayne Waldrop, and Unknown #14 were those of Jerry Lynn Waldrop.

On September 7, 1973, the appropriate parties were informed of the misidentification. The necessary steps were initiated to exchange the respective skeletal remains. This was accomplished during the week of September 17, 1973.

Joseph A. Jachimczyk, M.D., J.D.)
Chief Medical Examiner

(See Cases 73 - 3332, 73-3333, 73-3334, 73-3335, 73-3336, 73-3337, 73-3338, 73-3339, 73-3347, 73-3348, 73-3349, 73-3350, 73-3354, 73-3355, 73-3356 and 73-3357)

Case 73 - 3354
-3-

POSTMORTEM EXAMINATION ON THE BODIES OF

Donald Wayne Waldrop
and
Jerry Lynn Waldrop
904 Tulane Street
Houston, Texas

HISTORY: The skeletal remains were discovered among seventeen bodies at 4500 Silverbell Street, Stall #11, Houston, Texas, between 6:00 p.m. on August 8, 1973, and 8:00 p.m. on August 9, 1973. These skeletal remains were found together with Unknown #14, next to the front door, head to the north, at approximately 6:00 p.m. on August 9, 1973.

AUTOPSIES: The autopsies were performed by Chief Medical Examiner Joseph A. Jachimczyk, M.D., assisted by Assistant Medical Examiners G. Sheldon Green, M.D., and Ethel E. Erickson, M.D., and Dr. Paul G. Stimson, beginning at 1:15 p.m. on August 13, 1973, in the Harris County Morgue.

EXTERNAL APPEARANCE: The skeletal remains of unidentified bodies #13 and #14 (73-3353 and 73-3354) were totally intermingled when they arrived to the Harris County Morgue. One of the skulls was arbitrarily assigned to Case Number 73-3353 and the other arbitrarily assigned to Case Number 73-3354. Examination of these intermingled skeletons showed substantial differences in the shapes of two skulls. Skull #13 showed considerably greater prominence and ruggedness of the points of muscular attachment in the posterior and inferior portions of the skull, suggesting a somewhat more rugged and muscular individual than #14. Examination of numerous comparable bones showed varying degrees of difference in their structure with one set showing heavier muscular attachment and general overall greater thickness and mass in the bone. Those bones showing the more rugged and heavier structure were believed to be those which belonged to skull #13, while the lighter bones were believed to nearly match the structure of skull #14. Within these remains there were two separate skulls with two mandibles that fit each of the two respective skulls.

The skeletal remains labeled #13 and #14 together consisted of portions of two skeletons, including hair, two skulls and clothing. Within the remains, there were a number of partially

Donald Wayne Waldrop
and
Jerry Lynn Waldrop

Case 73 - 3353
and
Case 73 - 3354
-4-

torn items of clothing. One was a blue with white striped short sleeved shirt, size 16, Kaynee, tapered. There was also a small pair of torn maroon with white stripes long trousers with a built in belt. There were two maroon ankle length socks with a single white stripe at the ankle level, 8 inches in length from toe to heel. There was a leather belt which measured 26 inches in length from the hole where the buckle usually was kept. There was a buckle with a single prong. There was also a green shirt. There also was a pair of brown wool socks which measured 11 inches in length from toe to heel. There was a pair of green-brown trousers. The trouser length measured 26 inches in length from crotch to ankle. In this pair of pants, there was a wide leather belt with a silver hand stamped buckle. There was a strand of adhesive tape to which there was adherent dark brown hair, measuring up to 7 inches in length. There was similar dark brown hair on each of the skulls, and each measured approximately 7 inches in length. There were two pairs of low cut shoes, one pair of dark brown loafers which measured 11-1/2 inches in length labeled on the sole with Goodyear Wingfoot. The heels were not very worn. There was another pair of black loafers which measured 11-1/2 inches in length. Both heels of the black loafers were well worn and rounded. The purple with white striped trousers measured 27-1/2 inches in length from crotch to cuff length. Within the debris, there was a portion of thick paper sack, within which there was a heavier concentration of lime material. This could represent the sack which contained the lime powder originally. This had almost a consistency of plaster of paris. In the brown shoes, there was a label "elevated height increasing shoes". These were described by Mr. Waldrop. He also said that the older brother had the black loafers and that he would trade for a pair of boots at any time. A pair of black loafers was present in Unknowns #13 and #14. There was a strand of cord intermingled with the remains.

Complete postmortem Xrays did not reveal the presence of any radio-opaque objects such as bullets.

The skeletal remains of Unknown #13 (73-3353) consisted of the following: a skull with a high prominent forehead and round shape, the skull was that of a adolescent Caucasian with predominantly

Donald Wayne Waldrop
and
Jerry Lynn Waldrop

Case 73 - 3353
and
Case 73 - 3354
-5-

male features; mandible; cervical vertebrae 1, 2, 4 and 7, the odontoid tubercle of C-2 was completely fused; five thoracic vertebrae, including T-12; two mid lumbar vertebrae; right ilium; right and left ischial pubic bones, there was a postmortem fracture of the right ischial pubic bone, approximately at the site of fusion of the ischium and pubis; right and left clavicles, the proximal and distal epiphyses showed stage 0 fusion; twenty-four ribs, intact; right and left scapulae, showing stage 0 fusion of all epiphyses; right and left humeri, showing stage 0 fusion of all epiphyses; right and left proximal humeral epiphyses; right and left ulnae, showing stage 2 fusion of the proximal epiphyses and stage 0 fusion of the distal epiphyses; right and left radii, showing stage 0 fusion of all epiphyses; right and left femora, showing stage 0 to stage 1 fusion of the proximal epiphyses and stage 0 fusion of the distal epiphyses, the proximal epiphyses were in place on the femoral shafts, but could be pushed off without great difficulty, suggesting that fusion had begun to occur, it was at a very early phase; right and left tibiae with stage 0 fusion of all epiphyses; left distal tibial epiphysis; right fibula; left talus; and right 3rd, 4th and 5th metatarsals, showing stage 0 fusion of the epiphyses.

DENTAL EXAMINATION

The Universal System, upper right 1 through 16 and lower left 17 through 32, was utilized as follows: All four third molars are in their crypts. In the upper right second molar, there is occlusal lingual caries. This is tooth number 2. The upper right first molar has been extracted, tooth number 3. There is mesial occlusal distal caries in the upper right second bicuspid, tooth number 4. Distal occlusal caries in the upper right first bicuspid, tooth number 5. Mesial caries on the upper right cuspid, tooth number 6. Mesial and distal caries in the upper right lateral, tooth number 7. Mesial and distal caries in the upper right central, tooth number 8. Mesial and distal caries in the upper left central, tooth number 9. Distal caries in the upper left lateral, tooth number 10. Mesial caries in the upper left cuspid, tooth number 11. The upper right first molar has been extracted, tooth number 14. There is distal occlusal caries in the upper left second molar, tooth number 15. There is buccal pit caries occlusal lingual caries on the lower left second molar, tooth number 18. The lower left first molar has been extracted. There is distal caries on the lower right lateral tooth number 26. Mesial caries on the lower right cuspid, tooth number 27. There is an amalgam occlusal lingual amalgam and a buccal pit amalgam in the lower right first molar, tooth number 30. There is occlusal and buccal caries in the lower right second molar, tooth number 31. There is a slight maxillary protrusion. The jaw relationships are, otherwise, normal. Tooth number 7 is in mesial labial rotation; tooth 23 distal labial rotation; tooth 25 mesial labial rotation; tooth 26 distal lingual rotation; tooth 27 mesial labial rotation.

Paul G. Stimson, D.D.S., M.S.

Based upon the dental description furnished by the father, Mr. Everett Waldrop and the general appearance of his older son, and coupled with his description of the boys' clothing at the time of their disappearance and his sorting of the clothes in the Harris County Morgue at approximately 3:00 p.m. on August 11, 1973, when he positively identified the long sleeved green striped shirt, the green-brown trousers, and the blue sock, it is our opinion based upon a reasonable medical probability that these skeletal remains are those of Donald Wayne Waldrop.

Joseph A. Jachiczky, M.D., J.D.

THE STATE OF TEXAS X
COUNTY OF HARRIS X

I, the affiant, do duly swear I am Joseph A. Jachimczyk, Chief Medical Examiner in Houston, Harris County, Texas.

Pursuant to the authority vested in me under Article 49.25, Texas Code of Criminal Procedure, I hereby authorize Mr. James L. Turner, licensed funeral director, to transfer the remains of Donald Wayne Waldrop and Jerry Lynn Waldrop to the Louis Jones Funeral Home, in Alpharetta, Georgia, and there to exchange these two with the remains previously buried in Georgia under mistaken identities. It has been determined conclusively that the remains in Georgia are really those of Gregory Malley Winkle and David William Hilligiest of Houston, Texas. Accordingly, consider this as authority to return those bodies from Georgia to the Harris County Morgue, for re-examination and subsequent release to their respective families.

RE: CCR# 752990

Dear Sir:

As per your telephone request of 28 August 1973 the Duval County school records were reviewed for information pertaining to Donald Wayne Waldrop, WM, 8-14-55, and Jerry Lynn Waldrop, WM, 9-15-57.

Our investigation revealed that a Everett and Mary Waldrop had three children in our school system until April 28, 1970. They were the two mentioned siblings and Glenda Waldrop, WF, 11-8-59.

The school records indicated that they started school in this county transferring from Atlanta, Georgia in the 1965-1966 school year. Records indicated they moved back to Atlanta once during this period for a short duration.

The subjects school records do not indicate that they were provided with dental treatment. Jerry Waldrop was treated at the Duval Medical Center for an infected left leg sore but this was not extended treatment and X-rays were not required.

The Jacksonville Dental Clinic, which provided dental treatment for indigent school children, has no record of the subjects being treated.

The Juvenile records of the subjects at the Duval County Juvenile Shelter have no record of dental treatment rendered.

Donald Wayne Waldrop's school transfer record from Key School, Atlanta, Georgia, indicated that he was given a dental examination on October 25, 1966.

It is suggested you contact the Atlanta, Georgia School Board for further information.

You may be assured of the cooperation of this department in all matters of mutual interest.

Very truly yours,

DALE CARSON
Sheriff of Duval County
